

FLASH CUBE (CBM20)

This cube centralizes all types of alarms with a color code for each type. It is possible to connect up to 20 different transmitters. Small and design, it takes no space and is particularly convenient. It is possible to adjust the duration of light diffusion in order to guarantee maximum comfort to its user.

Technical Specifications

Height : 8,8 cm

Width : 9,2 cm

Depth : 4,3 cm

Weight : 171,5 g FLASH CUBE (CBM)

Wireless : Yes

Decoding format : MCU

Radio frequency : 433 Mhz

Duration of light diffusion : 30/60/90 seconds

Quantity of connected products : 20 units max.

Distance between the transmitters and the cube : 200 meters maximum in free fields

Power supply : 3.7V 2200 mAh Lithium battery.

Charge voltage must be limited to 4.2V Autonomy : 2 weeks – 1 month (depending of the use)

Guarantee : 2 years (battery 1 year)

Contents

1x Flash cube

1x USB connection port
