

Gas detector (DDG14)

This gas detector is specially designed for deaf people. Equipped with a built-in transmitter, it sends a signal to Jenile flash and vibrating alarms as soon as it detects too much gas emission. A standard gas detector does not in any way protect a deaf or hard of hearing person, who cannot hear the alarm go off. This detector quickly detects an abnormal concentration of domestic gas (natural gas, propane, butane, etc.).

Technical Specifications

Height	113 mm	Alimentation	220V AC included
Width	45 mm	Wireless device	No
Depth	47 mm	Radio frequency	433 MHz
Weight	130 g	Radio wave reception distance	10-20 m
Colori	White	Guarantee	2 years
Autonomy	2 weeks (depending on use)		

Contenu

1x Gas detector

1x Power cable

2x Pegs

2x Screw
