

Flood detector (DEI14)

This flood detector is specially designed for the deaf and hard of hearing.

Equipped with a built-in transmitter, it transmits a signal to flash and vibrating receivers as soon as it detects a rise in the water level. Deaf or hard of hearing people are therefore immediately informed of the danger thanks to their luminous and vibrating receivers via a red flash and a very rapid vibration.

Technical Specifications

Height	8,9 cm	Alimentation	Batteries (2x1.5V AA) Included
Width	8,9 cm	Wireless device	Yes
Depth	3,5 cm	Radio frequency	433 MHz
Weight	138 g	Guarantee	2 years
Colori	White		
Autonomy	1 year (for use current)		

Contents

1x Flood detector

1x Probe

1x Screw

2x Batteries (1,5V AA)
